
neptune-contrib Documentation

Release 0.25.0

Neptune Dev Team

Nov 03, 2022

Contents

Install neptune-contrib via pip:

```
pip install neptune-contrib
```

This installs *neptune-client* among other things. You can install additional packages depending on which module you want to use. For example:

```
pip install neptune-contrib[monitoring]
```

Installation options are: [bots], [hpo], [monitoring], [versioning], [viz] and [all].

To get all the functionality register account for free on neptune.ai website.

Warning: Neptune contrib documentation has moved [here](#).
